

Sporran Wallet

- V1: Manages KILT coins.
- V2: Stores and presents credentials. Enables on-chain and off-chain DIDs and customized service endpoints.

Stakeboard

- Staking platform for KILT Coins. Integrates with Sporran wallet.

SocialKYC

- Attests social attributes and issues credentials.
- V1: email and Twitter; gradually adding more social channels (Discord, GitHub, Twitch).

DIDsign

- Sign documents with your on-chain DID.

web3name

- Claim a customized name for your on-chain DID and digital identity.

Assetdid:

AssetDID

- Unique digital identifiers that can be used for NFTs, to ensure authenticity across multiple chains and prevent counterfeits.

Polimec

- Polkadot Liquidity Mechanism, a fundraising platform for the ecosystem.

Virtual Credential Organizations (VCOs)

- Autonomous model for building businesses on KILT blockchain.
